## **Cleaning & Spot Removal**

### **Arietis Cornu - Mocha**

#### **Daily Cleaning**

- **Vacuuming:** Use a quality vacuum cleaner with an adjustable beater bar and soft bristles to gently lift dirt and debris. In busy areas like halls, stairs, and landings, vacuum at least twice a week to prevent dirt and dust from settling into the fibers.

#### **Spot Cleaning Stains**

- **Routine Stains:** The Flooring Designer Hub carpets can be treated the same as wool carpets. For specific treatment, refer to a stain treatment chart for guidance.
- **Stubborn Stains:** For more stubborn stains, you can use a bleach solution. Mix one part bleach with ten parts warm water, and apply carefully. Important: Do not over-soak the carpet. Repeat as needed, or consult a professional cleaner for more persistent stains.

#### **Professional Cleaning**

- **Annual Steam Cleaning:** Steam clean your "Arietis Cornu - Mocha - Clive" carpet or rug once a year. This process removes trapped dirt, dust, and dried mud, rejuvenating its appearance and extending its lifespan. When seeking a professional cleaning service, we recommend using a WoolSafe Approved provider.

**Disclaimer:** This advice is offered in good faith. No responsibility is accepted for claims arising from the proposed treatments. If stains fail to respond to the proposed treatments, please consult a professional cleaning service.
